

Fill out this form online at DiverseComputing.com/POC

Please provide us with two points of contact for your agency. In the event of a customer support issue, such as an interruption in service, one of the two points of contact specified below would be responsible for contacting eAgent customer support. By providing your email address, you will be added to the email group that is notified whenever we have known outages and/or updates to our software.

Our standard support hours are Monday through Friday from 8 AM to 5 PM EST. We have established a dedicated customer support number for emergency issues at (850) 656-3333 ext. 2.

One of your points of contact may also email us an issue at support@diversecomputing.com.
